Portfolio:

SUMMARY

- Front-end web developer with a background in early education
- Trained at The Ohio State University/Edx boot camp
- Certificate in full-stack web development
- Strengths in problem-solving, creativity, and teamwork

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, GitHub, jQuery, Bootstrap, Bulma, NodeJS,MySQL, MongoDB, Express, React

PROJECTS

SHOWtime | https://github.com/agrastp/SHOWtime_Website | https://shorturl.at/fhr03
- This project combines the TVMaze and WatchMode APIs to help you determine if you would like to watch a television show recommended to you. It gives you a quick summary and 5 different ways you can watch the television show.
- Role: Team Manager
- Tools: HTML, Bulma, CSS, GoogleFonts, JavaScript

Weather App | https://github.com/agrastp/Weather_App | https://shorturl.at/adlCH
- This project uses a weather API to grab data on the five-day forecast around the world. The user inputs the city name of interest and the API returns information about temperature, wind, humidity, and expected weather for five days. This information is then stored in localstorage and can easily be searched with the click of a city generated button.
- Role: Solo Author
- Tools: HTML, CSS, JavaScript

Book Buzz | https://github.com/agrastp/book-review-application | https://shorturl.at/yzBIM
- Book Buzz is an application for readers to give reviews for well known books. Readers will create a protected login account with username and password to get full access to the application. Then a list of books will be provided for users to leave a review. Readers are also able to browse the application to see all reviews of the books provided on the site. When finished, users are able to log out.
- Role: Team Manager
- Tools: Handlebars, CSS, Bulma, JavaScript, Express, MySQL

Sale Floor Crew   October 2023-present
Bliss Home Market
Columbus, Ohio
Assist the customers in finding accessories and furniture they are interested in, give styling advice, and complete checkout. Work as a team member to ensure the buying experience is pleasurable to all customers and provide top-notch customer service.

Barn Volunteer   May 2023-present
Stockhands Horses for Healing
Columbus, Ohio
At this therapy horse barn for people of all ages and walks of life, I assist in barn chores; mucking stalls, tacking horses for lessons, cleaning common spaces. Mentor the students and assist in lessons by providing side-walking support (communicating and clarifying lesson instructions, physically holding students who need extra support while on the horse, and showing a caring face for those that need extra social-emotional support).

Kindergarten Teacher   August 2009- May 2023
Village Academy/Worthington City Schools
Powell/Worthington, Ohio
Planned and executed lessons to kindergarteners. Assessed continuous growth in all academic areas and determined intervention plans as needed. Communicated to parents, administration, and co-workers in order to work as a cohesive team for each student. Managed a group of students in order to stay on plan for the day and to meet all Ohio learning standards for the school year. Served on a science-curriculum committee to review new curriculum for students. Served on a professional-development committee to plan professional development workshops for Ohio teaching professionals.
